BERLIN, Feb. 14 (via Tuckerton, N. J.)—Reviewing recent operations along the Russian front, the military critic of the Overseas News Agency, writing under date of February 13, says:*"Abatement of the cold weather has been accompanied by livelier patrol activity on the Russian front. After their sanguinary failure in the offensive attempt on the Riga bridgehead the Russians during the past few days have attempted local advances along the Dvina front. Attacks have been repulsed by the Germans and have been subjected to much other annoyance in leaving Belgium.**Mr. Herter said today that he had applied for his passport February 8, but was kept waiting for them until February 9. When he had to change his plans at the last minute he seized and locked up for most of the night. When he was released, after repeated protests, he was ordered to cross the boundary by a o'clock. The result, he did, with the customary differences at the frontier.**PARIS VERSION.*(BY ATLANTIC CABLE AND A. P.)  
PARIS, Feb. 14.—The official statement tonight reads:*"The enterprise on a large scale was the two attacks by several Russian battalions made on February 12 near Eyskay, on the upper Sereth, which despite full co-operation by the French troops was completely in front of the German forces."***GERMAN PATROLS BUSY.***"German patrols on the other hand have during the past few days repeatedly gained notable successes. On the lower Silesia a German reconnoitering detachment on February 18 fought its way through forests and valuable materials while during a short but vigorous advance near Kielin on February 11 two officers and forty Russian were made prisoners. Some patrols directed on February 13, namely, were captured. A success of greater importance was obtained by our troops south of the Vale Putna road in the district of Mesta Canest, where the Russians for weeks have been exerting themselves by a number of attacks of the most violent character."***REPULSE BRITISH.**

*"LONDON, Feb. 14.—British headquarters in France tonight reported:**"A second day raid was made on an enemy strong point southeast of Grandcourt and took a few prisoners. Another very successful raid was carried out this morning north of Metz. We penetrated 250 yards into the enemy's defenses and reached his third line of defense. Two machine-gun emplacements and a number of dugouts were captured. Many were killed. The enemy were killed in the dugouts, which they refused to leave. We captured forty prisoners and a machine gun. Our casualties were very light."**"We also entered the German lines last night on the Somme and northeast of Ypres and inflicted considerable casualties. The Germans attempted to retreat east of Armentières during the night was repulsed; a second enemy party reached our trenches south of Messines, but was quickly repulsed."**"The number of prisoners brought in south of the Coala Gorge has increased to three officers and eighty-eight men. (BY A. P. NIGHT WIRE.)

HOBOKEEN, N. J., Feb. 14.—A de-

legation of German Ambassador to the United States, sailed for home today after the Scandinavian-American King Frederik VIII. With him was Countess von Bernstorff and several other officials.

The departure was made in a full year of universal military service was laid before the Army Baker today by the Army Staff.

It differs radically from that provided for in the Cham-

ber of Deputies, reported

by the Senate Military Com-

mittee, that the service would be required as an ab-

Offers of Relief by Church and Clubs are Spurned.

Climax of Dr. Smith's Crusade Against Fallen Women.

(BY A. P. NIGHT WIRE) SAN FRANCISCO, Feb. 14.—Blocked by cords of police, the segregated district of San Francisco's Barbary Coast had the appearance of a deserted village tonight, following the eviction of hundreds of inmates of alleged disorderly houses by the police today. About 100 women were affected.

Details of police under orders of Chief of Police D. A. White, concerning the district, were given at 1 o'clock. The women who had been there had one hour to pack up their belongings and get out. In less than half an hour the narrow streets and places filled with girls who had been carrying suit cases and personal effects. No attempt was made by police to arrest any of the inmates.

Atty. Charles M. Fickett, who was at the scene of the climax of San Francisco's crusade and was present, said that the action had been exposed by the State Hospital, having been originated by the Clayton act as applied in strikes, so that the act does not concern him.

Headquarters for relief of women were established by the club federation leaders and in segregated district. Few new ones were made for assistance.

## CORPORATIONS SUE TO RECOVER TAXES

(BY A. P. NIGHT WIRE) SACRAMENTO, Feb. 14.—Receivership of the State Treasury, Friend W. Miller, was notified today that he had brought in \$1,000,000 in taxes.

The amount was collected in the California State Federation of Tax Collectors, who said that similar organizations were formed in every State of California.

(BY DIRECT WIRE—EXCLUSIVE) PHOENIX (Ariz.) Feb. 14.—A mixture of half a dozen L.W.W.s and laborers from California enough to cause some alarm nearly 600 laborers, the Shattuck-Chandler Company of Los Angeles, the preparation of several thousand yards of cotton and the year Rubber Company, the local farm scale paid off for ten hours with \$1,000,000 in interest represented by the Benedictine Transportation Co.

The note is similar to that handed to the German Foreign Office and says that Brazil cannot recognize the validity of the blockade because there is no means of making it so and abandonment of all limitations with respect to the treatment of neutral ships puts it in conflict with the law governing such military operations and makes it illegal and irregular.

TURKS ON TIGRIS REPULSE BRITISH.

(BY ATLANTIC CABLE AND A. P.) BERLIN, Feb. 14 (via Tucker-ton).—An official report for February 13 from Constantinople headquarters says:

"In the vicinity of Felahie there was artillery and infantry firing. The British, after a fierce battle, repulsed the Turks, who had advanced against our wings, but was repulsed. On the afternoon of the 12th two hostile battalions after artillery preparation attacked our left wing and were repulsed."

"On the Dardanelles front Lieut. Mencke attacked three hostile machines and shot down one, the occupants of which were two British officers, who were taken prisoners. A machine gun and bombs were captured."

GERARD TO RETURN ON SPANISH LINER.

(BY ATLANTIC CABLE AND A. P.) BERLIN, Feb. 14 (via Paris, Feb. 14).—An official report for February 13 from Constantinople states:

"The German government is now discussing the possibility of sending a large sum of money to the Spanish government to help it meet its financial difficulties. The Spanish government has agreed to pay the sum of \$10,000,000 interest on the last war loan, according to Berlin newspapers quoted in a Hague dispatch to the Exchange Telegraph Company.

**What Our Neighbors Say  
of Marvelous Herbal Tonic.**

C. W. PAWLEY.

Many of the letters received by Dr. Pierce, at Buffalo, N. Y., from his patients in California. Here one from Mr. C. W. Pawley, Millville, Calif., who says: "I wish to say that I have used Dr. Pierce's Golden Medical Discovery for my family for three years. I have a family of ten children, all well and hearty, for which to a great extent, we owe thanks to Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets, which we use when in need of them."

Golden Medical Discovery is an herbal tonic, made up in liquid or tablet form and can be obtained in any drug store in the United States. It contains no alcohol or narcotic, and its ingredients are printed on the wrapper. Purely an herbal tonic derived from nature's roots and herbs.

If not obtainable at your dealer's send me 60 to Pierces' Herbs Hotel, Buffalo, N. Y., and he will mail large package of tablets.

Mr. P. L. Sautler, 925 East 12th St., Oakland, Calif., writes: "For about twelve years my system had been run-down and worn out, though I had been using numerous remedies suggested by my friends, and some of my own selection which I thought would cure me, but they were all of no avail. One day while I was walking down the street I saw a small pamphlet. A friend and I read it carefully and I decided to write for one of Dr. Pierce's Common Sense Medical Advisers. I found therein the name Dr. Pierce's Golden Medical Discovery. My friend advised me to try it and I am glad I did. Before I had used one bottle I noticed my complexion had improved and I began to feel softer and gradually coming to its natural color. I continued to use the medicine until I had taken twelve bottles.

"I will gladly recommend it to any who has a run-down system. It will build up the constitution if it is used according to directions. For the blood, it is the best purifier I have ever tried or experienced."

The purchasing power behind The Times' circulation makes this paper the supreme selling force for merchants, brokers, agents and general tradesmen, and no advertiser can get his proportionate share of business without using its columns.

**"EDUCATED BRAIN POWER will be worth more during 1917 than ever before in the world's history. The large-visioned American, with plenty of common sense, will command a record salary."**

—WILLIAM A. LAW, President of the First National Bank of Philadelphia, oldest national bank in the United States, and one of the strongest.

**\$25,000 Men**  
**\$50,000 Men**

**READ what the President of the First National Bank of Philadelphia says about the demand for "educated brain power." It is true.**

Every large corporation and important business in the United States is looking for men with "educated brain power"—looking for \$10,000, \$25,000 and \$50,000 men.

Such men are needed, urgently needed, now as never before, to direct and manage the great industrial enterprises. When war orders cease, "educated brain power" will be needed to adjust business here to new conditions without loss. New markets have to be developed, manufacturing methods must be improved, selling and distribution problems have to be handled with maximum economy.

Then, too, the competition of Europe after the war has to be met. War has taught the European nations how to intensify production. It has forced the adoption of up-to-date methods; it has developed industrial efficiency.

The situation is big with opportunities. Are you equal to it?

**What is "educated brain power"?**

It is knowledge, broad general knowledge; specific facts and information about many things. It is the mental capacity of a man who has not merely business training, but who is well informed; a man who is acquainted with the world and what is going on; a man who reads and studies.

A course in salesmanship for business men will be offered at the Young Men's Christian Association, beginning tonight, under the direction of E. Harvey Hadlock, teacher of business, history and English. Emphasis will be laid on the techniques of the sale, development of the salesman's personality and application of salesmanship in practice.

J. P. Weyerhaeuser Here.

Tired after a long journey, J. P. Weyerhaeuser, multi-millionaire lumberman, with his family, yesterday afternoon, reached Los Angeles for a short sojourn in Los Angeles. Son of the late lumber magnate, the local visitors succeeded to the admiration of the numerous tourists whose name has gone down in the history of wonderful American achievements.

To Ad Unfortunate.

Under the direction of a committee composed of Mrs. Thomas P. White, chairman; Mrs. E. W. Baldwin, Mrs. Arthur Merry, Mrs. Arnold Burkhardt, Mrs. J. Tobolsky, and Mrs. Herbert A. Gable, assisted by a committee of the Bon Ami Social Club, a benefit will be given at the Alexandria, Saturday afternoon, to create a fund for girls who are wards of the Woman's Police Court.

Will Present Play.

The Young People's Club of the Plymouth Congregational Church will present a play at the church building, Friday evening, the 23rd instant. The cast will consist of Mrs. Winnifred, Amy and Ada Jacobs, Althea Dawson, Donald Loughridge, Ole Rensler, Grace, Martha and Louise Rivers, G. W. Field, Mrs. Gladys Vogt, Ella Hibbs, and Fred Embroid, Donald and Lenore Rose, George, Allan and Clark Andrews. Music will be furnished by the Plymouth Orchestra. They will Protest.

Tonight mass meetings will be held at the Walker Theater under the direction of Thomas. The president of the Society for the Prevention of Cruelty to Animals, to protest against the lopping off of the county appropriation of \$10,000, and to begin an investigation to ascertain why other expenditures have made this economy necessary. ## TREND OF THE FINANCIAL NEWS.

CHIEF EVENTS OF YESTERDAY.  
(At Home.) Trading on the New York Stock Exchange was superficial, total sales of 300,000 shares being recorded, while operations were restricted to a few groups of professionals. The situation in Cuba was reflected in the course of sugar issues, Cuban American making a gross decline of six points. Bonds were irregular, Anglo-French Five making a new low price of 90%, before recovering, while Paris Sixes gained a point. United States bonds were unchanged on call.

## BACK TO THE WOODS.

A young girl of 14, who says she is a descendant of European royalty, ran away from home, and officers discovered her hiding in the woods near Portland. Perhaps she realized that it is about time for European royalty to take to the tall timber.

## WE TOLD 'EM SO.

In Seattle a man has applied for a divorce, claiming that his wife smokes in bed and that her conduct is annoying to his olfactory nerves. We warned those folks up there that if they tried prohibition something worse would happen. "And the worst is yet to come."

## WELCOME TO OUR CITY.

A Chicago family has started on a hike to Los Angeles. The walkers expect to make 2000 miles in 140 days. On the Ankle express stopovers are unlimited. However, we venture to wager that when they reach Los Angeles they will wish they had taken the train and done all their "constitutional" in Southern California.

## DIVINE HEALING.

There is a great deal of talk lately on the subject of "divine healing" and whether or not there is "anything in it." Some people seem to forget the fact that all healing must be Divine healing and that, regardless of whether a cure is effected by medicine or magnetism, water or electricity, food or sunlight, the healing agencies could not possibly come from any other than the Divine source of life.

## CORRECT.

George Barr McCutcheon, the novelist, who, with Mrs. McCutcheon, is visiting friends in Pasadena, says that California women are growing younger in appearance. Absolutely correct. "Mac!" Go to the head of the class. And just let anybody "dast" to dispute your statement! It is a natural law in California, especially in the southern part of the State, that folks grow young instead of old. Every time a rose fades into the cheeks of some visitor from the East who has come here to seek the health which only a clime like this can give.

## PEACEFUL BILLY.

Billy Bryan has an exceedingly simple plan for avoiding war with Germany. It is to keep American citizens from taking passage on belligerent ships and to refuse clearances to American vessels bound for a port within the danger zone, just as the Mayor of a city keeps citizens in their homes when a mob is in possession of the street.

A dog which pins its tail beneath its legs, rolls over on his back in the dirt and pitifully whines, may escape being bitten by other dogs. But a dog which trots along quietly with his tail stiff in the air and grows all the time has a better chance of escaping mortification from other dogs.

## BEAUTIFUL, BUT MUDDLED.

Senator Ham Lewis of Illinois says of the European war, it is "civilization pleading in the name of God that the century now reeling in the death grapple of Christianity with barbarism shall halt in its crumbling of kingdoms and crushing of empires."

That is beautiful, oh, how beautiful, but who shall do the halting, the Entente or the Central Powers? The Senator further says that "we in the republic of America are not without consolation in the presence of the world's catastrophes; for in this cataclysm we find their coming transformation." What is our consolation, Ham? Is it our exportation of munitions or the advanced prices of wheat, potatoes and pork?

If Hudibras was right in saying that "words are the rhetorician's tools," Senator Ham has mixed up his gimlets, his hammers and his saws so that one can hardly tell which is which and which is the other.

## WHAT THEY WAITED FOR.

There are a few people in this country who are anxiously awaiting the tidings of the torpedoing of an American ship by a German submarine, in the same spirit as that which animated the breast of Private Pat Brannigan during the American occupation of the City of Mexico.

Gen. Scott had issued an order prohibiting the looting of Mexican property, or any entry of our soldiers into Mexican houses. But some Mexicans, inspired by hatred of gringos, would, from the roofs or upper windows of houses, fire at American soldiers who, when off duty, were walking unarmed about the streets.

In order to put a stop to this practice Gen. Scott issued a second order exempting from the protection of the first order any house from which a shot should be fired at an American soldier.

The order was issued at noon, and at dusk Private Pat Brannigan was seen ostentatiously padding about the place. He was called by his commanding officer. "Brannigan," said the captain, "come here! Don't you know you are liable to be shot from the window or roof of one of these houses?" "Yes, captain," replied Pat, "that is just what the byes are after waiting for."

## A FOR RAISING THE PRICE OF LEGISLATORS.

When Senator Brown spoke before the Women's City Club on Monday, explaining certain bills to come before the Legislature, he did not fail to explicitly convey the impression that the majority of our State legislators were not worth their salt. His merry descriptive account of the way bills are run through the legislative machine was at once illuminating and discouraging. Yet he feels that we ought to pay our legislators more. What can we expect for \$2000 a year? Naturally, if an employee is hopelessly inefficient and conscientiousness at \$3000 a year, the simple act of promoting him to \$5000 a year will redeem his soul. In an ordinary business the employee usually has to prove himself able and efficient on the pay he is getting before we give him a rise. But in politics we must not expect intelligence and conscientiousness and loyalty, not even a good character, unless we raise the value of the ballot.

The argument lacked logic. There was no applause, but a disconcerting silence in the club. There were many who felt that we were already paying men controversially worth, say, \$100 a month nearly three times over for doubtful value received—on the Senator's own evidence. The only real effect of the intimate little account of daily labor of our legislators, whom the Senator depicted as being quite unable to cope with the mass of legislative matter before them, was that we need twice as many representatives with twice as much conscientious integrity, on half as much pay and considerably fewer legislative measures for them to work upon.

Doubtless if a better grade of intellectual attainment offered itself for office and proved its industry, loyalty, wisdom and integrity, we should feel stirred by enthusiasm about raising its pay, but at present we can't help believing that something is being put over on us, especially when one of their number gives us a peep behind the scenes.

## IS GERMANY TO STARVE?

Is Germany starving? If so, the fault is the Kaiser's, who is undoubtedly responsible for the conduct of the war. Had the rules observed during every other war been followed, all the grain ships and others with valuable food cargoes which have been intercepted by the German submarines would have been convoyed to some German port and the food supplies sold to the people who we are now told are starving. The inauguration of the submarine warfare put this possibility to one side, for none of the undersea vessels have had enough extra men to furnish a temporary crew to a captured vessel. The alternative has been to sink every vessel captured, thus destroying the very things that are now so much needed by the German people. To have pursued any other methods would have required the use of regular warships and England and France would have been better able to have competed with the Germans on the sea, as they were notably deficient in their preparations for adequate underwater fighters at the beginning of the war. Germany thus prepared itself for the very condition that now prevails.

Food substitutes are rarely of equal nutritive value to those for which they are substituted, and yet the best that could possibly be done has undoubtedly been done by the scientific men who have had this matter in charge. Proteins, carbohydrates, fats, mineral matters and calories have been studied to the limit, and with the materials at hand tools have been built up and served to the people who have found them more filling than nutritious. Dutch workers who have been employed in Germany are said to have been well paid by their employers in Germany, but had been obliged to subsist on butter substitutes, meat soup substitutes, war bread, coffee substitutes, etc. They had as much as they wanted in quantity but the nutritive value was so low that they returned home starving.

The human system performs many complex duties. In the process of digestion the tissues of the body select the necessary elements required to keep up the waste continually going on, practically regardless of what food has been eaten, as few if any people ever stop to think whether they are eating carbohydrates or proteins. They follow the dictates of their appetite and eat whatever they choose. The system balances up the ration if there be enough in cold fat to keep the cells in, and then put to a corner what can't be used back on the stove to await the onions, fried in pork fat until shrivelled and brown. Then the onions and fat, with enough water to cover the bottom of the kettle an inch deep, were put in with the roast and the cover closed and the whole put upon the fire. The steak had been pounded with a hammer, as guides beat tough moose steak to make it tender, and had been rolled in chopped onions, with salt and pepper, and laid with tablespoonsfuls of butter to melt among the onion chips. It was soon sizzling and browning under the gas broiler and sending out the savory odor that most good meats do.

The three-pound roast, seared over in a hot fryingpan with pork fat to keep the juice in, and then put to a corner, was left on the stove, the onions, fried in pork fat until shrivelled and brown. Then the onions and fat, with enough water to cover the bottom of the kettle an inch deep, were put in with the roast and the cover closed and the whole put upon the fire. The steak had been pounded with a hammer, as guides beat tough moose steak to make it tender, and had been rolled in chopped onions, with salt and pepper, and laid with tablespoonsfuls of butter to melt among the onion chips. It was soon sizzling and browning under the gas broiler and sending out the savory odor that most good meats do.

The settler will know none of the loneliness that was the part of the early pioneer. Such are the plans of this unusual scheme as they have been worked out so far.

One thousand farms will not go far among 100,000 returning soldiers. The great value of the project is that it points a way for the British government to follow in its North American, Antipodean and island colonies.

Lord Shaughnessy was a Milwaukee boy

who worked for the Chicago, Milwaukee and St. Paul Railway. He accepted an offer from the Canadian Pacific, became a naturalized British subject and went from one office to another until he became president of the Canadian Pacific system, when George V created him a Baron.

EMPLOYEE STREET AGAIN.

Now that the Second-street tunnel is assured, the people of the northwest section of the city would like to know when the Temple street franchise is to be taken up and something done to relieve the dangerous condition of this road bed. They are getting thoroughly tired of the "bump the bump" and "shoot the chutes" style of riding as a daily exercise. As things are now a long way towards setting back the hour of starvation. If Germany is starving it is very largely the result of the methods adopted in the hope of starving out England, but which have resulted in back action on the German people themselves.

## THE ARIZONA CELEBRATION.

The Hassayampers resident or visiting in Los Angeles celebrated yesterday the birthday of the youngest and one of the most prosperous of the forty-eight children of the nation.

The pioneers of Arizona did not reach

their destination in Pullman cars. With

their wives and little ones and all their stu-

tuff in wagons, they went as our remote

ancestors went from the German forests,

to seek new pastures and to found new

kingdoms. They were self-marshaled and leaderless. They were not, as a rule, in-

spired by vulgar avarice, but by a just and

prudent desire to improve their fortunes.

Theiris was the antiquated Homeric spirit wedded to common-sense Americanism.

Before the organization of territorial govern-

ment they were able to preserve order

without law and to maintain justice with

out tribunals.

Their possession of absolute personal in-

dependence never degenerated into the savage liberty of a country without law, into cruelty or oppression.

last year in the production of wealth in

proportion to population. Her yield of cop-

per acre amounted to \$1000 worth for every

man, woman and child in the State.

JIMMY SHECKARD

CUBS NEAR-BOSS.

(BY A. P. NIGHT WIRE.)

CHICAGO, Feb. 14.—James Sheckard, former star outfielder with the Chicago Nationals, who will assist Fred Mitchell, manager of the club during the season, will be in charge of the second team on the California training trip, it was announced today. Forty games will be played by Team No. 2, starting at San Fran. March 2.

Owing to a rule adopted by the Pacific Coast League, team No. 2 will not be permitted to play any games in the league less than in their home grounds, but several games have been scheduled with these teams at other cities. The team will play exhibition games in Sacramento on March 9 and 10, and also at Marysville, on March 12.

The Chicagoans also will meet Spokane at Sacramento on the 9th, and of March 10, and also at San Francisco on the same field in the afternoon. Two games also are scheduled with the Spokane club at Stockton, Cal., on March 17 and 18.

**ROMANOFF TO WRESTLE ITO.**

**Contest to be Until One of Them Gives Up.**

**Japanese Expert is Wonder at His Art.**

**Kervaras and Demetral are Really Training.**

**BY HOWARD ANGUS.**

Constantine Romanoff, the Russian wrestler, was matched yesterday by Promoter Puss Halibrter, to meet Tokugoro Ito, the famous Japanese jiu-jitsu and judo expert.

The match is to permit of every hold allowable in Judo and catch-as-catch-can wrestling and a fall will come only when one or the other of the contestants gives up.

Planning the guidelines will mean nothing in this contest, which will be truly to the finish.

The date has not been set, but the contest probably will be held March 3 or 10 at the Shrine Auditorium.

This will be welcome news to the thousands who saw the contest a week ago when it forced the powerful Wild Billie Mullin to quit.

Those who saw the matmen were willing to admit that it's science can conquer plain, unadulterated brute strength. But even Caucasian strength, like that of the Greeks, would have to see it against a clever, scientific, quick-thinking wrestler before he would admit the superiority of the oriental art.

And the person is Romanoff. He is easily the cleverest wrestler who has come to this city with the exception of Frank Gotch. He has forgotten the art of the wristlock, the strangle, the Lewis known. Of course, he lacks Lewis's bull strength and endurance.

If its science he can make Romanoff quit, then he is simply wonderful.

Those two matmen, Gus Kervaras and Bill Demetral, trained yesterday with all the fury and passion that has accompanied their previous workouts. Each brought an additional Greek wrestler with him.

Kervaras can't wait his friend O'Connor until he can speak five different languages—Greek, English, American, Irish and Canadian. O'Connor was the underdog, however, in the art of the wristlock and the Greek put them on O'Connor.

When the latter wobbled at the knees, Kervaras sent him to the showers and wrestled an hour with Romanoff.

The Greek showed marked improvement yesterday. Once on top of his man, he knew what he intended to do and put Romanoff in his place again. His blocking is also much better.

Demetral trained again with the amateurs of the club, taking each on for five minutes in rapid succession. He also had his Greek, a chunky 152-pounder, who tore around for five minutes.

This feud match is going to be one of grand variety. Demetral is quick as a cat and Kervaras as strong as an ox. The game of the former will be to trick the latter, catch him unawares and pin him. Kervaras will try to wear his man down, much like Lewis does, trusting in his advantage in weight.

Kervaras said yesterday that he would probably have to ask for police protection. He claims that four or five persons are flocking in a group with the sole intention of getting before the contest. Day night, according to Gus, they laid for him and nearly caught him.

**CHICAGO BUREAU OF THE TIMES, Feb. 14.—**Indicative of the efforts being put forth by the railroads of the country to relieve the present car shortage is an announcement of T. G. Widmeyer, general agent of the Salt Lake Route, this city.

The demand for automobiles in southern California this winter has produced will hold the honor of the school in the big intercollegiate relay carnival to be held on Howard Field in Los Angeles, Saturday.

Coach Lutz has been working a squad of about twenty men in the two events, the half-mile and the half-mile relay and he has high hopes of taking first place in at least one.

Gaston Seizer, Frost and Gass, all fast 440 men, are to run the mile relay race for Redlands. Seizer is an especially good runner for he can run the half-mile race with Swartwout, Yount and Allen. These teams have been making a big showing against the teams of this section but of course they will go up against some fast teams in the carnival.

Coach Lutz is also working his men hard in preparation for the dual meet to be held in this city a week from Saturday.

**STANFORD UNIVERSITY,** Feb. 14.—Stanford and the University of California clash for the second time this season when both the rival varsity and freshman basketball teams oppose each other here, tomorrow evening.

The first-year contest, which is to be played as a curtain-raiser to the main event, is doped to be won by the Card babies. By defeating the Palo Alto Athletic Club, 44 to 15, last night, the freshman quintette created a strong belief that they are a formidable collection. Moulton, a former Los Angeles player, and Hood, have shown talent in finding the basket. Together they earned thirty-two points for Stanford last night.

Even the most optimistic fan can do little more than hope for a varsity success. Stanford held the Blue and Gold to a narrow victory last Saturday, but the game was an uninteresting exhibition of closed play.

Sale of Three Hundred Thousand Shares Resulted. Total Being Almost the Lightest of Any Full Month this Year—Bonds Irregular, with Anglo-French Fives Making a New Low Price.

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 14.—Trading on the Stock Exchange today was limited to the last degree, with only 200,000 shares being traded on the floor, the smallest, with one exception, since the middle of January. Operators of professional firms were reverting its opinion of the previous month's remarkable trading to the short side. The only unusual or unusual feature was the activity of the Los Angeles Stock Exchange yesterday, which was paid to her many young girls who came on to pose in the nude, and declined to do; to drive an automobile backward down an incline of twenty-five miles an hour, and to ride a horse going over an embankment; to plow the reins over her head away scenes, and to have the horse drag her own ground.

For Home for Girls.

## THROUGH JOYOUS DANCE WILL FINANCE CHARITY.

**C**HARITY begins at home" is the motto of the members of the Queen's Daughters, who will give a grand charity ball tonight at Columbus Auditorium for the benefit of the Home for Girls, which they support. The home is located on Sunset boulevard, and was founded for the purpose of caring for girls who are homeless or out of work. Although the institution is maintained by the Catholic society of the Queen's Daughters, it is nonsectarian in its scope, as it cares for needy girls of all religions.

The girls, who can afford to do so, pay a small fee for board and room, and those who are unable to do so, those out of work, are house free charge. The programme for tonight includes dancing, cards and Mardi Gras.

The affair will be given under the direction of Mrs. Arnold J. Burkeman, and all the ladies of the Queen's Daughters will act as hostesses. The list of patronesses is headed by Misses C. Allen, H. S. Armstrong, J. Anderson, P. Bayer, John J. Bergin, James P. Burns, George W. Barnes, Joseph

### NOTABLE DECISION UPON ASSESSMENTS.

**PUBLIC WORKS BOARD ACTED  
WITHOUT JURISDICTION.**

Emil Firth Wins Substantial Victory in Contest Against Payment of Levy for Madison-Virgil Storm Drain—New District may be Formed.

Emil Firth, who has vigorously protested against the alleged injuries of the movement of the Madison-Virgil storm drain district, and refused to pay the assessment, won a substantial victory in the suit brought against him by the contractors, the Tibbits-Pacific Company, to enforce the collection.

The case was tried by Judge E. P. Gitterman in Department Eleven, and when Attorney Ingrie Carpenter, representing Mr. Firth, moved for a nonsuit, it was granted, on the ground that the time for the performance of the contract was up before the action was brought, and by the Board of Public Works. The court held that the board was without jurisdiction to extend the time.

Mr. Firth, who is an extensive owner of real estate in the city tract, held that a part of the territory did not drain into the Madison-Virgil storm drain, but did drain into Silver Lake basin. Hence he refused to consent to the system. His agent, Emil F. Hillman, filed a protest before the board when the matter was up, and when it was not needed, Mr. Firth refused to pay the assessment.

It is probable that a new assessment district will be formed, and that the contention of Mr. Firth that his property is not benefitted will be taken into account.

**Woman Charged with Arson is Set Free When Little Evidence Against Her is Shown and Her Presence at Home is Proved Necessary.**

Two little children who needed the hourly care of their mother were successful advocates in the District Attorney's office yesterday to have a hearing adjourned, resulting again in the mother dismissed. She and her husband, Claude Pearson, were arrested on the charge of having set fire to their home, No. 1833 East Franklin street, October 5.

Mrs. Pearson's trial was to have begun in Superior Judge Willis' court yesterday, but there was little evidence against the mother and the judge adjourned the case until that Deputy District Attorney Doran asked that the case be dismissed. The father of the children will face trial tomorrow. It is alleged he set fire with the purpose of defrauding an insurance company.

### At the City Hall. ASK AMENDMENT TO LIQUOR LAW.

**COUNCIL TO DECIDE TODAY ON  
ONE-DAY PERMIT PLAN.**

**Unionists Fall in Attempt to Have Measure Passed Under the Emergency Clause—Societies and Many Organizations Favor the Proposed Bill.**

An amendment to the liquor ordinance providing for one-day licenses will be considered by the Council this morning. It was introduced yesterday by Councilman Wright and strongly advocated by Councilman Wheeler, but objection was made to the section permitting the sale of whisky and mixed drinks and the measure was referred to the City Attorney for revision.

It is understood that the real reason for bringing up the amendment up yesterday was to have it passed as an emergency measure so as to permit the sale of intoxicating liquors at the Labor Union Temple during the remainder of the week. Revision of the bill was made last night that there is no possibility of the amendment being rushed through under the emergency clause. Former Judge Bordwell gave a decision that it was illegal to have a liquor law as an emergency measure," said Mr. Roberts, "and the decision still stands."

That a majority of the Councilmen are in favor of the proposed amendment seemed apparent yesterday, but it was not because of the request of the unionists. Such an amendment has been under consideration ever since the official edict that no public house or restaurant or hotel could sell liquor without a license. The order prohibited the sale or giving away of liquors at picnics or other institutions.

The proposed amendment provides for the payment of \$10 per day for licenses, which are to be given by the City Clerk upon approval of the Police Commissioner. It is said the amendment is very similar to the law in San Francisco.
